18th ESGENA Conference
18-20 October 2014

Hosted by the
Austrian Society of Endoscopy and GE Nurses and Assistants
(IVEPA)

In Conjunction with the
22nd United European Gastroenterology Week
Austria Center Vienna (ACV), Vienna, Austria

Further Information:
www.ueg.eu/week/esgena/
Word of Welcome

Dear colleague,

On behalf of ESGENA and the Austrian Society of Endoscopy and Gastroenterology Nurses and Associates (IVEPA) it is our great pleasure to invite you to the 18th ESGENA Conference which will be held during the 22nd United European Gastroenterology Week, 18-20 October 2014, in Vienna, Austria.

Following past meetings in 1998 and 2008, this is the third time that the medical and nursing community of Gastroenterology and Endoscopy will meet in Vienna. Much like the city of Vienna, both UEG and ESGENA, stay for continuity as well as for medical and nursing progress in Gastroenterology.

The ESGENA conference is not only an opportunity to meet colleagues from throughout Europe, but also from North and South America, Africa, Asia and Australia. The exchange with nurses from all over the world combined with the opportunity to attend the medical programme of the UEG Week ensures the ESGENA conference is an exceptional educational event.

The three day ESGENA conference will include state-of-the-art lectures, free papers & posters, lunch sessions, several workshops with hands-on training and live transmissions covering current topics in Gastroenterology and Endoscopy.

We hope to welcome you to the 18th ESGENA Conference in October 2014 in Vienna, Austria.

Michael Ortmann, President of ESGENA  
Anita Beyer, President of IVEPA

Registration fees ESGENA

<table>
<thead>
<tr>
<th>Registration and Payment received</th>
<th>by May 15, 2014</th>
<th>by September 10, 2014</th>
<th>after September 10, 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td>ESGENA Conference</td>
<td>€ 185</td>
<td>€ 200</td>
<td>€ 250</td>
</tr>
</tbody>
</table>

The registration fees include Austrian VAT.

It is essential that nurses bring a copy of their professional standing or similar identification to the conference registration desk in order to prove their status (confirmation by employer, proof of education or registration as a nurse).

If you would like to register up to 10 delegates, please register each person individually.

Registration includes

- Admission to all ESGENA scientific sessions and workshops (Saturday - Monday)
- Admission to the ESGENA Welcome Reception (Saturday)
- Admission to the UEG Week Scientific Sessions (Monday)
- Admission to the UEG Week Poster and Technical Exhibition (Monday)
- Admission to the ESGE Learning Area (Saturday - Monday)
- Admission to the Ultrasound Learning Centre (Saturday - Monday)
- Unlimited use of Vienna public transportation system (ticket is valid from Saturday through Monday).
- Congress material (final programme, ESGENA abstract book, etc.)
- Coffee breaks and lunches (Saturday - Monday)
- If nurses are interested to attend the UEG Week on Tuesday and Wednesday, please contact Ulrike Beilenhoff (ESGENA Scientific Secretary, email: UK-Beilenhoff@t-online.de). The ESGENA registration gives nurses full access to the whole UEG Week.

ESGENA Scientific Programme

Explanations

Hands-on-Training on Saturday and Sunday, 18-19 October 2014
- Hands-on training on bio simulators will be offered in different sessions in co-operation with ESGE.
- Tickets for hands-on training will only be available onsite at the entrance of the ESGE Learning Area.
- Please note that there are only a limited number of tickets available in order to ensure small training groups at each station.

ESGENA Poster Session
- Scientific Posters will be displayed on Sunday, October 19, 2014.
- Two Poster Sessions will be held on Sunday, October 19, 2014.

ESGENA Lunch Session
- Lunch sessions will combine state-of-the-art lectures with hands-on training at different stations.
- On Sunday, October 19, 2014, three parallel lunch sessions will be offered.

ESGENA-Workshops on October 18, 2014

Workshop 1: Professional development program on haemostasis

This workshop is organised by Boston Scientific

14:00-15:30 Lounge L/M

Workshop language: English

Chairs: Andreas Stipas, France

Aims & Content
Management of Gastrointestinal (GI) hemorrhage is the most acute treatment undertaken in the Endoscopy unit and can lead to potentially fatal outcomes. Clinical best practice is essential to help minimise the risks involved when dealing with these patients.

By the end of the workshop, participants should
- gain an understanding of the principles of endoscopic hemostasis to help them deliver clinical best practice.
- Understand the disease states and treatment options within endoscopic hemostasis
- Understand the setup and use of hemostasis devices
- To have gained a hands on experience of the main hemostasis devices

Workshop 2: Improving practice though structured projects

This workshop is organised by ESGENA

14.00-15:30 Lounge 6

Workshop language: English

Chairs: Ulrike Beilenhoff, Germany
        Christiane Neumann, United Kingdom

Aims & Content
The professional duty of each nurse includes sharing good evidence based practice. This can be done by teaching staff in one’s own department, publication in journals or conference presentations. Most practitioners have areas of practice they want to audit, formally evaluate or research, but how this is done correctly is not normally taught during nurse training.

The workshop aims to introduce nurses to the principles of good investigative practice when
- Choosing a topic to examine/study
- Choosing an appropriate methodology
- Evaluating the findings
- And then producing an appropriate abstract for a conference

Advice will also be given on how to
- Produce a poster which is both scientific and visually attractive
- Present a poster at a meeting to the Poster Round Judges
**Workshop 3: IDB – Update**

This workshop is organised by IVEPA

Workshop language: Germany

14:00-15:30 Lounge 5

Chair: Anita Beyer, Austria
Rita Lindenthaler, Austria

**Aims & Content**

Ulcerative colitis and Crohn’s disease affect all age groups and can start at any age. The highest number of new cases occurs in young people aged between 15 and 45. The treatment goal is to control symptoms, modify the disease process and improve quality of life. Part one of the workshop will give an update about Drug interactions in IBD patients.

Crohn’s disease and ulcerative colitis affect women in their child-bearing years. The multidisciplinary approach is a key issue which helps to achieve successful outcomes for mother and baby. Continued medical management during pregnancy is crucial in optimizing outcomes. The second part of the workshop will focus on IBD medication during pregnancy.

---

**Workshop 4: Hands-on training on bio simulators**

This workshop is organised by ESGENA

14:00-15:30 ESGE Learning Area

Workshop language: English

Chairs: Evi Baumann, Switzerland,
Eric Pflimlin, Switzerland

**Aims & Content**

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors:
Participants will have the opportunity to perform endoscopic techniques on the following topics:
- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation will be limited, registration will be treated on a first-come-first-served basis.
Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

---

**Workshop 5: Endoscope Drying and Storage: A new view**

This workshop is organised by OLYMPUS EUROPA SE & CO. KG

16.00-17.30 Lounge L/M

Workshop language: English

Chairs: Holger Biering, Germany
Reinhard Blum, Germany

**Aims & Content**

Endoscope drying and storage was handled in various ways in the past, although it always was an integral part in the reprocessing workflow. Procedures were mainly up to local or regional guidelines. Since focus on hygiene aspects have increased quite significantly in Europe, more awareness was as well given to the drying and storage of non-sterilise medical
devices, like flexible medical endoscopes. Consequently a new European norm dealing with drying and storage cabinets is under preparation.

This workshop is intended to:

- update about latest European trends in endoscope drying and storage
- reflect about the importance of drying and storage of endoscope
- share ideas and practical experience about endoscope drying and storage
- inform about options of full process documentation incl traceability

Presentations:

The new EN16442 European norm
Lionel Pineau, France

Importance of drying and storage of endoscopes
Tina Bradley, United Kingdom

Working with drying cabinets in the daily workflow
Jadranka Brljak, Croatia

Workshop 6: Electrosurgery – recommendations for applications and prevention of complication

This workshop is organised by ERBE Elektromedizin GmbH

16.00-17.30 Lounge 6

Workshop language: English

Chairs: Thomas Beck, Germany
Björn Fehrke, Switzerland

Aims & Content

Electrosurgery offers the possibility of pressure-free and precise cutting and at the same time control of bleeding during endoscopic resection techniques. With argon plasma coagulation tissue can be devitalized. The water-jet surgery provides additional options for resection.

The aim of the workshop is to

- To update on principles of electrosurgery and relevant safety measures
- To demonstrate different settings for different applications like Polypectomy, EMR, ESD, Papilloectomy, etc.

in order to achieve max safety and to prevent adverse events and complications
Workshop 7: Practical training with models - How to make dummies

This workshop is organised by IVEPA

16.00-17.30  Lounge 5

Workshop language: German

Chairs: Michael Ortmann, Switzerland

Aims & Content
In order to simulate realistic training scenarios, training on dummies is a very effective and efficient way of learning. However, it is not necessary to use complicated and expensive bio simulators like pig dummies for daily hands-on-training or smaller workshops; artificial models and dummies can easily been "built" locally.

The attendees will get information
- about commercially available dummies and
- how to produce cheap, simple and very effective self-made dummies for practical training in their own practice by using a combination of plastic dolls, meat, fruit and vegetables.

Workshop 8: Hands-on training on bio simulators

This workshop is organised by ESGENA

16:00-17:30  ESGE Learning Area

Workshop language: English

Chairs: Evi Baumann, Switzerland,
        Eric Pflimlin, Switzerland

Aims & Content
Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics:
- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation will be limited, registration will be treated on a first-come-first-served basis. Tickets will be available onsite only – at the entrance of the ESGE Learning Area.
ESGENA-Scientific Programme on October 19, 2014

SESSION 1: Patient care in endoscopy

09:00-10:30 Hall G/H

Chairs
Christine Petersen, The Netherlands
Mette Olesen, Denmark

09:00-09:10 Welcome
Michael Ortmann, Switzerland

09:10-09:35 Caution - patient is listening! Communication with tact
Helen Griffith, United Kingdom

09:35-10:00 PEG- Nurse – responsibilities and recourses
Gitte Christensen, Denmark

10:00-10:25 Ethical dilemmas in clinical practice
Christiane Neumann, United Kingdom

10:25-10:30 Discussion

SESSION 2: Management in endoscopy

09:00-10:30 Hall I/K

Chairs
Wendy Waagenes, Denmark
Annemarie Absenger, Austria

09:00-09:10 Welcome
Jayne Tillett, United Kingdom

09:10-09:35 Getting better with lean management in endoscopy
Marjon de Pater, The Netherlands

09:35-10:00 Accreditation standards - led by the Joint Commission International
Rina Assulin, Israel

10:00-10:25 Risk management in endoscopy
Fanny Durand, France

10:25-10:30 Discussion
## SESSION 3: Free paper session

                        Michael Ortmann, Switzerland |
Workshop 10: Hands-on training on bio simulators

14:00-15:30    ESGE Learning Area in Lounge 2-3

Chairs:        Eric Pflimlin, Switzerland
               Evi Baumann, Switzerland

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors. Participants will have the opportunity to perform endoscopic techniques on the following topics:

- Colonoscopy
- ERCP

As participation will be limited, registration will be treated on a first-come-first-served basis. Ticket will be available onsite only – at the entrance of the ESGE Learning Area.

SESSION 5: Updates in gastroenterology

15:00-16:30    Hall G/H

Chairs        Irene Dunkley, United Kingdom
              Herta Pomper, Austria

15:00-15:20    Eosinophile Osophagitis
               Petr Hrunz, Switzerland

15:20-15:40    Digestive and non digestive malignancy in familial CRC syndromes (FAP, HNPCC, …)
               Evelin Dekker, The Netherlands

15:40-16:00    Virtual biopsy – relevant for nurses?
               Nadan Rustemovic, Croatia

16:00-16:15    See more, treat better (Olympus Europa Holding GmbH)
               Romy Klausnitzer, Germany

16.15-16:30   Discussion

SESSION 6: Education

15:00-16:30    Hall I/K

Chairs        Ulrike Beilenhoff, Germany
              Gunilla Strand, Sweden

15:00-15:20    Teaching new staff – the role of the endoscopy teacher
               Michael Ortmann, Switzerland

15:20-15:40    How to teach 'compassion' to health care professionals
               Sarah Tobin, United Kingdom

15:40-16:00    Endoscopy nurse-administered propofol sedation – Assessment tools
               Jeppe Thue Jensen, Denmark

16.00-16.20   How to teach colonoscopy
               James East, United Kingdom

16:20-16:30   Discussion
Poster Round II

16:30-17:00 Poster area in front of Hall G/H

Chairs: Jayne Tillett, United Kingdom
        Hanne Olsen, Denmark
        Marjon de Pater, The Netherlands
        Enriqueta Hernandez-Soto, Spain

<tr>
<td>09:00-10:30</td>
<td><strong>Hall F1</strong></td>
</tr>
</tbody>
</table>
| Chairs     | Michael Ortmann, Switzerland
             | Gerlinde Weilguny, Austria                                                |
| 09:00-09:10| **Best Free Paper and Best Poster Awards (sponsored by PENTAX)**        |
|            | Michael Ortmann, Switzerland
             | Gerlinde Weilguny, Vienna                                                  |
| 09:10-09:40| **Endoscopy challenges with changed anatomy**                            |
|            | (with on stage demonstration)                                             |
|            | Lars Aabakken, Norway                                                    |
|            | After surgery, the endoscopic approach is often difficult and requires a  |
|            | changed strategy for diagnosis and therapy with different equipment.     |
|            | During an interesting on-stage presentation, Lars Aabakken will         |
|            | demonstrate various scenarios by using dough.                           |
| 09:40-10:00| **Do we need nurses in endoscopy departments?**                          |
|            | Irene Dunkley, United Kingdom                                            |
|            | With reduced number of qualified nurses available and financial pressure |
|            | in national health systems, there has been an increase in delegation of |
|            | duties to non-registered staff within the endoscopy setting. Cost        |
|            | effective health care and financial pressures raises the questions -     |
|            | Should we simply use cheaper staff to care for patients? Are nurses      |
|            | necessary in Endoscopy? Irene Dunkley challenges the current and future  |
|            | roles critically.                                                        |
| 10:00-10:20| **Checklists and briefings - Cockpit meets endoscopy**                  |
|            | Hans Härting, Austria                                                   |
|            | Checklists and briefings before take-off are gold standard in aviation.  |
|            | They allow an early detection of potential problems and ensure safety    |
|            | of passengers and crew. Checklists and briefings are increasingly used   |
|            | in health care. Hans Härting, Austrian airline pilot, will identify     |
|            | similarities to Endoscopy as both workplaces require good preparation   |
|            | and quick reactions, not only in emergency situations.                   |
| 10:20-10:30| **Invitation to the next ESGENA Conference 2015 in Barcelona**          |
|            | Enriqueta Hernandez-Soto, Spain                                         |
ESGE Live Endoscopy

On Tuesday, October 21, 2014, live demonstration sessions will be broadcast from the University Hospital Vienna. International experts will perform and comment live procedures. The live video demonstrations are moderated on-site by a team of speakers, and accompanied by short talks relating to the procedures shown.

ESGE Learning Area

Visit the ESGE Learning Area

The European Society of Gastrointestinal Endoscopy welcomes all delegates of the UEG Week to the ESGE Learning Area where many accomplished doctors and nurses volunteer their expertise for you: to promote good endoscopy, to show the basics as well as the latest developments, to support training and to offer small-group teaching activities to everyone with a real interest in the how and why of current endoscopy. The ESGE Learning Area provides a unique and ideal platform for live encounter and interaction among aspiring endoscopists and renowned experts in the field. Please come and be a part of it!

Hands-on Training Centre

Test your skills and experience the latest technology. The 90-minute training sessions in the Hands-on Theatre offer unique access to state of the art endoscopic equipment and accessories. Participants will have the opportunity to look, learn, ask questions and perform techniques themselves under personal doctor and nurse tutoring. In cooperation with ESGENA, the aim of this activity is to increase the awareness of diagnostic and therapeutic techniques and to offer delegates the possibility of checking their skills.

Registration for the Hands-on Sessions in the Operating Theatre: Registration is required on Saturday, Sunday and Monday. Please register at the ESGE desk in the Learning Area. Participation will be on a first-come-first-served basis. To maintain a high standard of teaching each workstation is limited to a maximum of eight participants.

Please note that some procedures require prior experience and skills. Please refer to the on-site course description posted in the ESGE Learning Area.

Endoscopic training on Simbionix GI Simulators is available on a walk-in basis throughout the conference week.

Saturday, Oct 18, 2014

Registration onsite

- EMR
- Hemostasis
- Polypectomy / colonoscopy
- ERCP

Session 1 14:00 - 15:30
Session 2 16:00 - 17:30

Sunday, Oct 19, 2014

Registration onsite

- EMR
- Hemostasis
- Polypectomy / colonoscopy

Session 1 11:00 – 12:30
Session 2 14:30 – 15:30
Session 3 16:00 – 17:30
• Radiofrequency ablation (only sessions 2 and 3)
• ERCP

Monday, Oct 14, 2013
Registration onsite
• EUS
• FNA

Tuesday, Oct 14, 2013
No registration required
• Radiofrequency Ablation
• Modern clip treatment for bleeding, fistulae and perforation
• Hemostasis - Hands-on Experience of the Instinct Clip and Hemospray
• Polyp removal with G-EYE Endoscope

Wednesday, Oct 22, 2014
No registration required
• Radiofrequency Ablation
• Modern clip treatment for bleeding, fistulae and perforation
• Hands-on Experience of the Instinct Clip and Hemospray
• Polyp removal with G-EYE Endoscope

ESGE DVD Learning Centre
Check out one of the DVD stations in the ESGE Learning Area any time. A selection of 10 highly informative videos have been contributed by the JGES, ASGE and ESGE. Grab a headphone and tune in to your special area of interest. All DVDs in English. Not available for sale.

The live demonstration shown in the auditorium will be broadcast into the Learning Area on Saturday and Tuesday. On Sunday, Monday and Wednesday you can tune in to last year’s live demonstration from UEG Week 2013 in Berlin.

ESGE Lecture Theatre
Highly qualified and well-known endoscopists have been invited to present their views and experience with current endoscopic procedures and techniques in the ESGE Lecture Theatre. Their counterparts in discussion are equally well-known, in several cases more senior specialists, whose role it is to moderate the talk and perhaps critically question the case at hand. The Lecture Theatre is open to all delegates of the UEG Week. This is your opportunity to talk with the experts. Walk in and take a seat!
